

LINEVISION

Accelerating the New Zero Grid

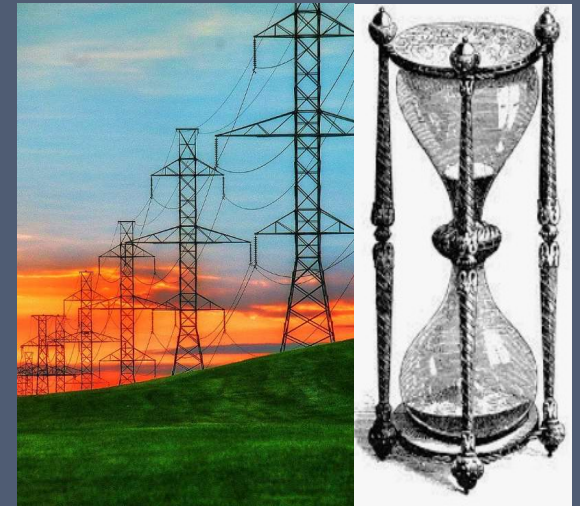

Resource Constraints

Load Growth

Fragile Grid

LineVision Technology

Non-Contact LiDAR

Patented Technology:

- > EMF Power Flow Monitoring
- > Non-Contact Conductor Position Monitoring

Scanning LiDAR:

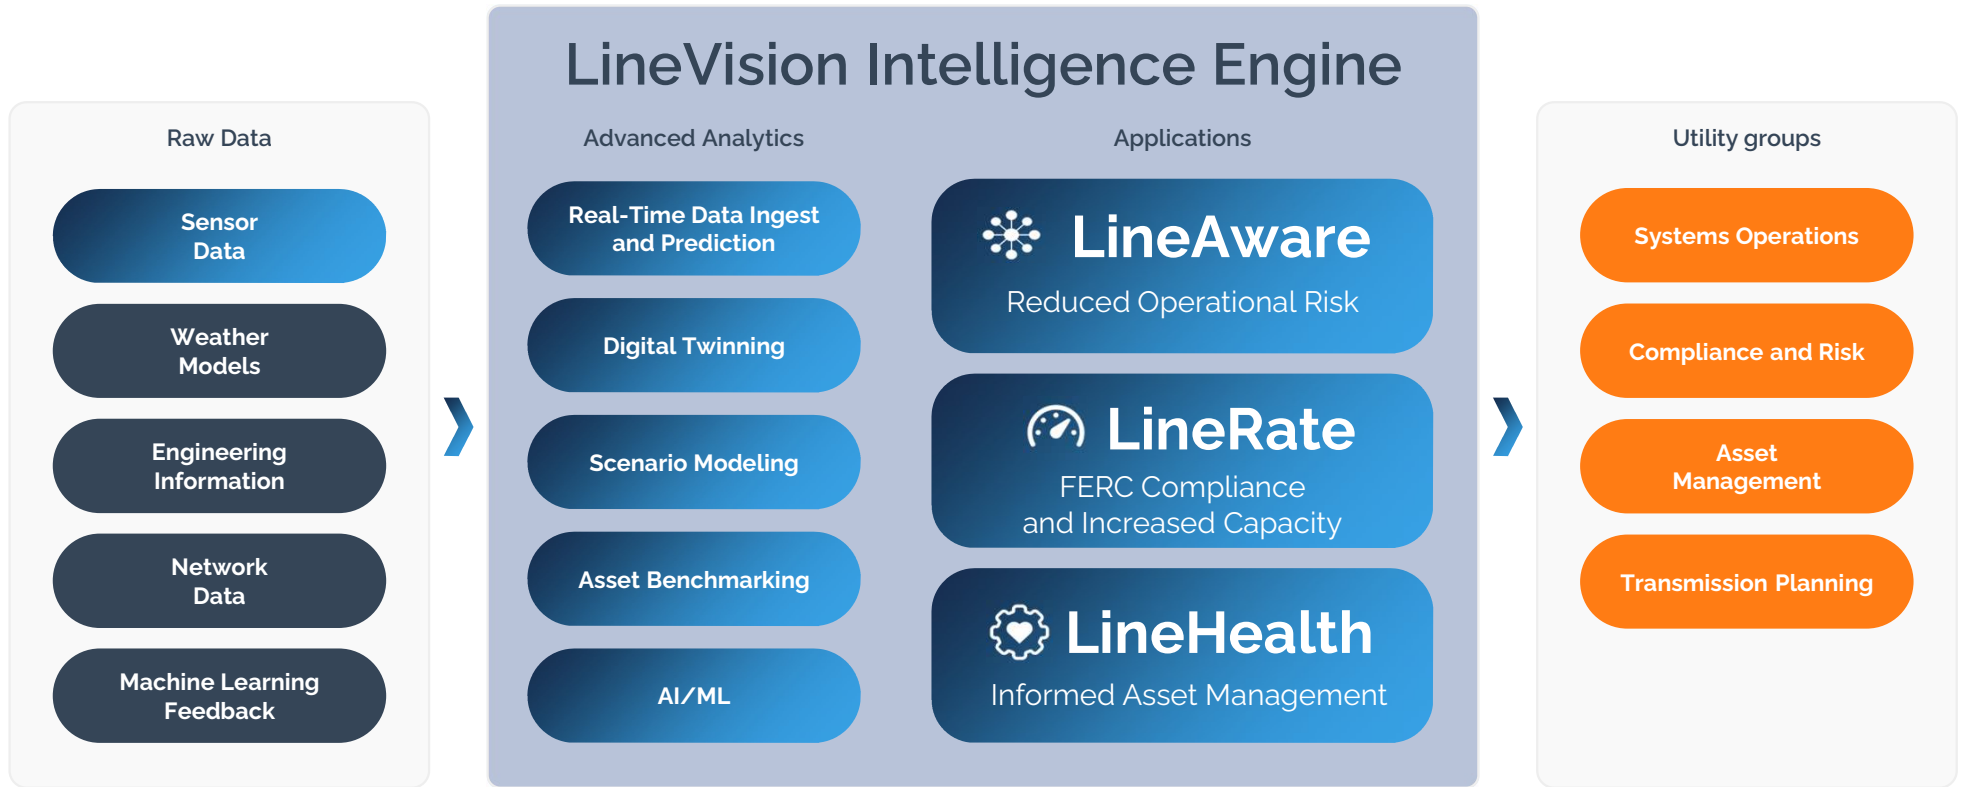

- > Continuously measures conductor position
- > Secure cloud analytics power advanced insights

Simple Installation

- > No outages
- > No live-line work
- > 30 minutes to install

The Complete Picture

- > Data on ALL conductor phases
- > Any tower, any voltage, any conductor
- > IEEE & CIGRE standards based

- Raw Data
- LineVision
- Utilities
